Thread: [Credit card payments for CBD products](#)

bull- - October 12, 2020, 3:57 am

Anyone here know a way to accept CC payments for CBD products in the EU?
Looking to integrate it into a web shop.

PayPal will notoriously freeze accounts for accepting payments for CBD products. And CBD or THC products are high-risk for most easy to implement card merchants.

Thank you will try.

EDIT: Just noticed they're US only? Any EU alternative?

Try Clover or Thryv, then.

Let me know.

I'd say take a look over this website I just found, they do CBD merchant accounts specifically as well as many others.
