Thread: [Bytes should be easier to get somehow.](#)

HackingGames247 - October 12, 2020, 10:29 am

Posting is hard to come by, with only so many users.

Gambling, posting threads/posts, it's nice, but could be quicker.

Velma - October 12, 2020, 10:34 am

I don't think its rather hard to get Bytes especially if you make HQ post. If you are really struggling to get Bytes there are plenty of people who sell Bytes. Besides Bytes is like a reward system for making posts so you got to earn your bytes.

Doom - October 12, 2020, 10:38 am

There's plenty of bytes circulating the site so I don't think making them easier to obtain would be a good idea. It encourages people to post so I like the current setup.

Forensic - October 12, 2020, 10:40 am

They would be worthless if they were any easier to come by. Just be patient & save them up.

Nico - October 12, 2020, 10:41 am

There's over 7 million bytes in circulation. I don't think it's that hard to gain bytes. Despite me always flipping mine away, I still manage to gain a substantial amount especially posting in the daily check in thread.

Consider becoming an upgraded member as you will gain bytes much quicker.

Whered 7 million come from? True, upgraded members get more.

You just joined today and already complaining it's too hard to post?

Being active gets you Bytes.

Free Kurdistan - October 12, 2020, 10:49 am

Honestly I'd say they are way too easy to get rn.

Deany - October 12, 2020, 10:50 am

what are you saving your bytes for anyway?

webdev77 - October 12, 2020, 10:53 am

Bytes are not meant to be super easy to get. What difference does it make if you have 10 internet points or 100 trillion internet points exactly?

To play the games on here, they're worth \$2-3 a thousand.

There is hardly any threads to post on.

Omniscient lowered the rewards in Bytes you get for posts, threads and polls.

If you want them fast, you should buy them. I don't see any reason why they should "be easier to get" as it wouldn't benefit HF in general and all that, if all members got like 10k+ Bytes in no-time.

Gambling, posting threads/posts, it's nice, but could be quicker.No, It encourages HQ posting. You can get "quick love" on your posts if they are HQ or liked by other members of the forum. Meaning if you post well, you'll be rewarded with 5x the bytes per post vs just posting randomly.

Crimin4L - October 12, 2020, 3:26 pm

No i think its good where its at now, where you have to earn your bytes. If you want extra then check in everyday for an extra 25..

We should make them harder if anything.

K1. - October 12, 2020, 3:58 pm

The easier they are to get the less value though I guess

Everyone can't be number 1 ;D

SeekHelp - October 12, 2020, 4:03 pm

I think you are compensated a fair amount with the existing reward system.

jecoylecoy - October 12, 2020, 4:05 pm

Bytes now are cheaper than before so you should buy some if you want them in easy way. ?

Scoppa - October 12, 2020, 4:15 pm

I'm new here and just wondering what they are used for ?

Demize - October 12, 2020, 6:26 pm

Only way to get them is to gamble or post a major shit ton (aka the point of having bytes is an incentive to post)

I don't have money to buy too and the HUM eat alot of bytes ?.

Prawnster - October 12, 2020, 7:07 pm

It's not super hard to get them, you just post or buy them or gamble for them or run contests for them amongst other things lmao
Just gotta passively build them up and then gamble them all away in 3 minutes and hate urself for it ;)

Blockonome - October 13, 2020, 7:14 am

I think it is good that they are it is ok hard to get them, because I feel like if they are too easy to get, then they lose value.

Yep, I have the flipping disease too. LOL

MarvinMalware - October 13, 2020, 9:10 am

They'd begin to lose their value if you make them any easier to get, post some quality content and hope for quick loves. :)

Or if you really want bytes you can always head to Currency Exchange and buy some from someone here.

Grim - October 13, 2020, 9:26 am

There's tons of other ways to get them then posting. Check out the games section!

Trev - October 13, 2020, 9:57 am

Yeah they were easier to earn at first, they keep lowering the amount you get per post/thread/etc

Tyr - October 13, 2020, 1:04 pm

This should be in the [Suggestions and Idea's category of the forum, first off](#). Not to be rude, but you shouldn't be making threads complaining about how hard they are to obtain when there's a specific section setup for a reason, by staff members, for your convenience to utilize there.

How many kills do you have at the moment? Having a lower level is easier to have kills than in having a higher level hum.

It's going faster than we might think
but it costs bytes

this is what i do ^^

I can do 3/4 kills a day if I don't play a lot ?

Good job homie, a blue egg would kill more than that and you don't need to stack it. :) just feed the hum every kill and wait for the sword to be at full.

A + - October 13, 2020, 11:39 pm

if I drop a blue egg I think I would sell it to get green and red eggs (more than enough to finish the HUM challenge) ?

Before many are interested to buy a ticket for a blue egg but now only a few buy tickets from it. If get lucky you might get a lot of bytes.

I typically get around 2.5k-3k minimum Bytes from Sapphire eggs.

ScorpionX - October 14, 2020, 7:30 am

I personally enjoy posting and making threads, so getting bytes isn't a big deal for me.
