Thread: [==> 1 VOUCH COPY LEFT --- Earn up to \\$20,000 in a month on semi-auto pilot! \[GRAY\]](#)

Canada Goose - October 18, 2020, 11:05 am

1 VOUCH COPY LEFT

To get the main question out of the way, how much can this earn you?

Up to 5k weekly, it can potentially earn you more but my personal top has been 20k in 1 month, within this month I invested close to \$500 on the advertisement and I was active during weekdays spending extra time in the evening (11 pm to 5 am on average).

If you choose for a full autopilot income with a minimum investment of \$50 then earnings are significantly lower, about \$250 weekly.

If you choose to go for a semi autopilot income where you do spend that extra hour a day to increase earnings then you can expect around \$500 weekly.

So as you can see earnings depend on you, that being said, anyone can do this as you don't need any specific skill set, more about this later.

That 20k earnings in 1 month, can of course be proven properly else I wouldn't mention them, to begin with.

Now that the main question is out of the way, here is more information about the method, this is an extended method that introduces you to the world of creating a digital brand out of nothing.

A brand that can generate up to 5k USD weekly, a brand that has no product, and yet it does.

A brand that will generate you cash long term, on semi-auto pilot if you want, one that doesn't require any skills

or barely any money.

You don't have to own any highly trusted forum accounts, you don't need developers, and you don't need money to make money.

With this method, you will be the one running a successful online business, without the need to spend much effort, barely any at all.

Yes spending extra effort, and investing some extra funds will obviously increase your earnings, and can increase them

heavily but you can start with absolutely nothing, 0\$, is enough to start properly and easily scale yourself towards a point

where you can re-invest your profits.

I don't claim to sell a secret private method, simply because I don't know how private this is, but what I do know is that only 1 other guy currently does this aside from myself and we are both earning relatively big.

What I'm selling here is a legit semi autopilot income that anyone can do, long term, one that doesn't cost anything to get started with

and to profit with but one that does profit faster and more if you do have some spare funds to invest,

one that is semi autopilot, almost fully autopilot aside from setup but one that does earn more if you do spend the extra time.

Setup is relatively easy and I'll be there to guide you properly as well, I will mentor you throughout the system if you want.

How fast can you earn? That depends on yourself, but earnings on your first day are quite normal and most likely to happen as well.

Can this get saturated? If 1000s of people are doing this, yeah sure your income will definitely be affected then but on the other hand, this goes as deep as you want and you will always be able to adapt and basically branch out to an entirely new part while maintaining this concept of method.

To prevent that i will definitely sell this very limited, rest assured, the number of copies that I'll be selling will not affect our earnings in any way, at all, not even close to putting anything at risk.

I perform the method in a gray hat way, but you can also do this full whitehat, logically you would think that the whitehat path does earn less, this is not entirely true, in a sense it is true because the gray hat does earn significantly higher at certain events/times but on a regular day, both perform well, I'm only focussed on the gray hat part as it is still morally ethical tho, this is where my experience and is what I'll be able to properly mentor you in.

Summary:Manual, Semi-Autopilot, or even Autopilot aside from setup, if you choose to be.

No investments required but they do speed things up, you can start with \$0 properly and build yourself towards scaling with profits.

Theoretically no to very low saturation risk in the next 5 years

High income is a realistic weekly outcome without that much effort

Limited sales of this method and my mentoring

You will be mentored throughout your first setup

Long term income

FAQ

Can you really earn on autopilot? I bet it's only like 5 or 10 dollars daily right?

No that is not true, even on fully autopilot (aside from setup) you can still have \$50-\$100 days, however, you can also expect \$0-25 days, weekly you would still be up a guaranteed \$250 for sure tho.

Can you also sometimes switch between autopilot and manually or semi autopilot?

Yes, of course, that is basically what I always days, in the weekends I enjoy my family and let this autopilot, weekends you earn more anyways so it all evens out, during weekdays I go manually/semi-auto pilot depending on whether I have stuff to do or not.

What payment methods do you accept?

I accept Bitcoin, monero, litecoin, Costentos,

How can you earn?

Bitcoin, Paypal, and Stripe, basically whatever you prefer, I recommend sticking to Bitcoin and Stripe since stripe has chargeback protection and is a very easy setup, you just need a bank

account and you are good to go.
I personally always try to avoid PayPal.

Are your earnings higher when you do accept stripe and PayPal aside from Bitcoin only?
Yes, however, I recommend going Stripe and Bitcoin only as mentioned above, Paypal isn't really needed when you have Stripe and Stripe is very quickly setup.

Why would you sell this?
An easy extra 5k, why not right? Saturation? No not a risk at all with the limited copies I'm selling.
My time? It's worth 5k for sure.

Pricing

The first copy will be sold for \$650
The second copy will be sold for \$795 <---
I'll be selling the third copy for a flat \$1,000
The fourth copy will go for \$1,250
and the Fifth copy will be sold for \$1,500

This pricing is based on the realistic earnings, worst outcomes, and best cases, all based on my personal experience but also, how easy this method is to set up and work with, the time I stick into you, and the fact that you can earn your investment back within a week or 2 depending on yourself, I wouldn't feel comfortable asking for more since in the end, you'll be the one doing the work, not me. I also definitely wouldn't feel comfortable selling this for less, the first copy being sold for \$650 is already a tad too low if you ask me personally but I can live with that for the sake of a fair decent review, with the effort of posting results that you've experienced after the first days of working with my method.

Refund Policy

If you don't earn similar to what I've mentioned, I will refund you the difference between what you've earned and what you've paid, this obviously does require you to properly set up the method and not run some half-ass setup on purpose just to get the method for free.

This is also why I won't accept middleman but maintain a Refund Policy combined with a Contract instead, to avoid people abusing the middleman process which easily can be done, you can't however, abuse the contract system since the owner of Hackforums takes care of disputes himself and you won't be able to fool him.

This is really interesting, i have sent you a friend request on discord for your proof of earnings, i only accept full uncut videos.

Any discount for first buyer?

Sakhill - October 18, 2020, 1:19 pm

Will you use middleman which will hold funds until I earn half of my initial investment?

(that should be 1-3 days according to you)

I've already responded to that in my OP.

Also, you should take more time to read properly, if you can't even read my thread properly then I can't expect from you to work with my method properly if you already fail at reading let alone performing.

So in your case, it's a definite no.

20k is my personal top, which I can proof, I don't earn 20k every single month with this method, I've gone very in-depth on my earnings, what can affect it, how you can increase it, you can read all about it in my thread.

Sent proof of earnings, recorded the way you want it.

Everyone who requests proof of earnings can request me to show anything in the video, if you want your HF profile shown or whatever, that is no problem.

In time when I was read thread I didn't see that thing about middleman.

Sound suspicious enough as all earnings proof can be fake easy, and you are new here on hf with

no that much rating so will wait for some review of some trusted member.

And your trust scan is suspicious enough:

I'm sending custom uncut videos of my proof of earnings.

And I also don't mind sharing my screen to prove my earnings Live which can not be faked, those will be statistical, not just my btc wallet showing income cuz that indeed wouldn't prove anything.

Also, nobody told you to buy right away, feel free to wait for reviews I have no rush, nor should you, if you are then you are doing something wrong.

My IP scan proofs that I use a VPN? so should you? it's a hackers forum and it's 2020, not being on multiple VPNs is dumb.

Move on kiddo stop sales trashing, there is nothing for you in this thread.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Can i have a vouch copy and test this method and post a vouch copy as well.

Capital Bra - October 18, 2020, 3:35 pm

Hey, if you deem me trustworthy enough i would take a vc :)

SIM-3092442 - October 18, 2020, 3:37 pm

I would take a vouch copy if you still have one.

Qebi - October 18, 2020, 3:38 pm

Just stumbled across this even though I seem to be following you round the forum?

You seem to have a lot of HQ income flow's so I'm going to yet again ask you for a vouch copy for me to review.

Kind regards,

Geralt - October 18, 2020, 3:38 pm

I'll take a vouch copy if it's still available.

JINXs - October 18, 2020, 3:39 pm

ill take a vouch copy if available

SIM-2508228 - October 18, 2020, 3:58 pm

If you deem me worthy I can take the vouch copy and set it up and leave weekly updates of my progress. Been looking to do something like this for a while. I also have money available to invest to speed up the process

?roye - October 18, 2020, 4:03 pm

I'd like to take the last vouch copy if it still hasn't been given to anyone.

N - October 18, 2020, 4:06 pm

This looks interesting. If eligible for a vouch I'll post a review for future buyers.

Thanks and good luck with sales.

lulzcat - October 18, 2020, 4:15 pm

Spoke with OP who seemed pretty helpful, informative and easy going. I've purchased the first copy and will update the thread as I go.

Canada Goose - October 18, 2020, 4:47 pm

First copy is sold to [lulzcat](#) for \$650.

The second copy is priced at \$795 and the copy after that a flat \$1,000.

I will be focussed on Lulzcat now and will send out the vouch copy after that as my priority is with customers ofcourse.

lulzcat - October 18, 2020, 6:34 pm

Running through the setup with OP now, The method he is using is unique and something I have considered in the past but never knew where to start, he is taking his time to guide me through the process step by step and I have absolute confidence that the end product will yield decent returns with the capability to also expand and scale.

Please be aware that depending how savy you are in this field, it may take some time for the initial setup to be done. That shouldn't deter you though as he guides you through it the entire way.

I'll update again with proof of earnings once we're finished. Stay tuned!

Thank you for the review mate, I'm also happy to work with you and can't wait for you to start making that cash.

Sent you a PM about a vouch copy in exchange for a detailed review, let me know if you're willing to do this :)

and glws OP

Trappy - October 18, 2020, 7:38 pm

I would love to take a vouch copy in exchange for my detailed review.

Canada Goose - October 18, 2020, 8:21 pm

I'll be going to bed very shortly as it's really late here.

First customer is fully mentored and understand everything, he chosen a more manual and less auto pilot way of doing this method, and chosen to do it very properly which makes setup longer then usually.

When I wake up I'll help him finalize his first setup if he hasn't already, he should and very likely will be earning tomorrow already with his setup.

I will also choose my vouch copy receiver when I wake up, so that is still available to get.

Did he teach you the full method from scratch to success so you can be on your own?
If not, I hope this isnt an exit scam, or otherwise you are kinda fucked.

Be careful dealing without MM, expecially with high amounts.

Be careful dealing without MM, especially with high amounts.

He taught me enough of it that I could run it on my own, I just need his help with some of the technical stuff which if I really put my mind to I could figure out given the time.

He came across as quite genuine so I don't think it's an exit scam, you never know though (Wouldn't be the first time for me lol). Hasn't blocked me on discord or anything, I'll wait a few hours until he wakes up and see if he has any idea what's going on.

Albert - October 19, 2020, 1:29 am

I think it was because of that trust scan and his ip matching another accounts. I don't know if Omni allows it now cuz I haven't been as active, but I'm pretty sure you're only supposed to have one account here

lulzcat - October 19, 2020, 1:35 am

Hmm, that could be misinterpreted though, if you use the same VPN as another user and hit the same node then of course your IP has the chance of matching another users...

If you have to send few hundred in btc to someone for something what is look to good to be true without any additional information, you should be suspicious enough.

When that person doesn't accept middleman you should just close this thread and try to warn other for possible scam.

Thankfully his potential scam won't work this time.

Baseless assumptions, He was working alongside me for the better part of half the day... It was either the most elaborate scheme for a \$650 exit scam I have ever seen or just bad luck that his previous misdoings caught up with him. I don't know, I don't have the full story.

You've been trying to shit over him since he started this thread, unless you have something factual to back up your claims, make like a tree and fuck off.
