Prices are based on bandwidth consumption, so you can buy a little, or a lot.

They are permanent proxies. Meaning they'll be there everyday. Never to go anywhere!

The duration of the proxies also relies on your selected bandwidth. When you run out - you're out!

I've been using this network for awhile.

Can vouch for the reliability and efficiency of it :)

It works just as any other proxy does. You will get instructions upon purchase.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

We don't really recommend anything less than a GB.
However the math is simple ..

\$8 is a whole GB.
Half a GB = \$4
Quarter of a GB = \$2
