Thread: [<-----LITERAL MONEY PRINTING -- MANUAL/AUTOMATED: YOUR CHOICE -- \\$5k+/mo EASY ----->](#)

vad0x - October 21, 2020, 3:15 pm

Selling a method I've been using these last couples months to make extra money because it doesn't take a lot of time and is honestly really easy.

I'm offering the method plus my support (which is me holding your hand) and a way to make it automated if you choose to go that way + some exclusive access

Why its easy and worth it;

- takes little time and almost no effort
- can be automated (already in the works +comes in method)
- can be scaled easily
- no risk

Method Price Now -- \$100

Limited Copies ~ 40/40 (price will go up as the copies sell)

First Discounted Copy ~ 1/1

Vouch Copies ~ 0/2

Q/A;

How fast can I expect to make my money back?

Upon investment, you will be off and beginning the process of making your money make almost instantly, from there it can take as little as 2-3 weeks to not only reach return... but multiply it at any rate

Is this Method Limited to any Country?

Although the process is 1 step quicker for U.S and Canadian residents, this method will work the same for anyone in the world

What hat level is this Method?

Although there is absolutely no risk, considering it has been around for years (just not in this way), I would put this method at Gray Hat. Simply because of an edit process that is not firmly discouraged but necessary

Something like that

Tos;

Due to the success of the method for months, and its proven legitimacy to not die out, refunds will be handled on a case by case basis in the digression of the seller. Free items are applied within the method that are non returnable and those will be factored into the refund about. I assume this TOS will never be necessary and look forward to each successful sale as we both strive for maximum profitability together.

Here is my review:

I personally have not done this method, but I have heard about it. Let me explain, there are two ways, the Manual way and Auto way. The Manual way im not familiar with, but the OP in his guide provides the steps needed to do it manually and he will provide support if you need it. The Auto Way is what Ive seen and been a part of the "community". Ive never done the Auto, it does require some investment, but in my opinion its worth it. The biggest drawback of why I haven't done it is the wait time to receive money. That is just me, but it is literally like "printing money". If you have patience and are willing to wait, it can be very rewarding.

The OP covers both ways in his guide and he will provide support if you have questions or need assistance.

Overall this method is nothing new, as this has been around, but it does work. Many people do it, and I honestly dont see it stopping anytime soon.

This is my review after 48h of reading the method and putting it into action. Though I have yet to receive the payment/product promised, I will update this post once I do get it.

As OP stated, it's a money printer (Not Literally haha), you can make 100s or maybe 1000s of dollars following the steps in the eBook.

The guidelines were a bit confusing/unclear but OP helped out in minutes and I went ahead with the process. If I do receive the \$\$\$, I'd actually say this is one of the best ways to make some good money with a few minutes of your time.

I have not seen this method yet anywhere and I don't think it'll get saturated anytime soon.

Will keep y'all posted on the results, OP said it takes about 2-3 weeks. Let's see what happens next. Fingers crossed.

I know I may not have the flashiest account, but I would love a vouch copy or discounted copy. I'll be sure to leave an extensive review. Thanks

lulzcat - October 21, 2020, 4:18 pm

Hey mate, what's the price?

EDIT: Also would be happy for a vouch copy in exchange for a detailed review, I'll leave that up to you to decide though.

DaCov19 - October 21, 2020, 4:29 pm

No trashtalk but If this method is like your last one I spent money on for nothing... you better have solid proofs this time. Also available for a vouch

?roye - October 21, 2020, 4:52 pm

Since there is still 1/2 vouch copies left, I'd like to take one and review it. Lemme know if you deem me worthy of it.

mudbenson - October 21, 2020, 11:20 pm

Does this have to do with rebates? If so, mods have to shut it down, since technically blackhat. If not, GLWS man!

Rexxleo558 - October 22, 2020, 4:02 am

Is this editing receipts to get rebates ?? Does this have anything to do with rebates. Why is this question being avoided. It's 3rd time it's been asked

something with it but not blackhat at all. No real fraud is done, this is in the greyhat area.
