Hey! I play Dofus quite often, including the Retro version.

You should check out my thread below:

<https://hackforums.net/showthread.php?tid=6116629>

Guaranteed the best SOCKS5/HTTPS IPv4/IPv6 proxies on the market!

Takuro - October 22, 2020, 2:50 pm

I looked, but I can't pay \$ 40 ^^

Check my signature for socks5 proxies. Should have some Canada and France.

We can negotiate on packages, you're not limited to what is just listed.

Takuro - October 23, 2020, 1:16 am

I agree to negotiate, because I don't know if this will work for the single account server on dofus, because I have tried other proxy and it does not work, someone just told me that you need a proxy ipv4 socks5, I did not know ^^
