Kant Atta's Canadian Python Coding Service

I am now offering my services as a computer programmer to the people of HackForums. I have been computer programming for over 8 years now and am currently employed as a web developer.

Below are some of the specific services I offer, but feel free to send me a message if you're unsure about what I provide.

Services Offered

Full-stack Web Development

SQL

Python

C++

VB.NET

If you have any questions or concerns feel free to contact me via PM [contract=tid]Start Contract[/contract]

I can gladly recommend using his services, as he has been helping me with several Python projects with good results.

Easy communications and trustworthy.

Any chance of seeing some Albanian code?

NZT - November 17, 2020, 11:25 pm

Interested in hiring you for a short project. Best way to contact you? Do you have discord?

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Hey guys! I've had a lot on my plate this past year with work but I'm finally at a point where I can start accepting contracts again. If anyone is in need of a developer to build an application (desktop, web, or mobile), feel free to reply to this thread or shoot me a PM.
