Thread: [Untapped Ultra Cheap Traffic Source | \\$0.00001 Per Visitor | Resell This Traffic!](#)

fernquaker - October 26, 2020, 4:29 am

No need for a fancy thread. Let me get straight to the point.

I started using these traffic sources 6 months ago and I was making money reselling this traffic on Fiverr and some forums.

Here are some of the results I get from using these traffic sources:

Please note that these results are not typical. You need to take action to get these kind of results.

What do I offer?

- A traffic source which is very very cheap.
- A step by step guide on how to setup a campaign from these traffic sources.
- Point of contact of the traffic sources I mentioned in the guide.
- Real visitors.
- Visits from all over the globe.
- You can get real traffic for as low as \$0.00001 per visitor.
- That's 100,000 visitors for \$1.
- Traffic can be tracked on Google Analytics and Adobe Analytics.
- Only legit page views.
- No bots, no scripts, no traffic exchange, no proxies, no data centers.
- Traffic comes from unique IPs, useragent, Carriers, device types, device brands, OS, ISP's, and browsers.
- This is direct pop traffic.
- Traffic doesn't work on getting Youtube views.
- It doesn't work for AdSense.
- Traffic drip feeding option is available inside the platform.

Let me show you some stats of my 3 campaigns:

FAQ:

What is the main Ebook all about?

- Main Ebook consist of 7 traffic sources. 3 out of 7 traffic sources allow you to buy \$0.00001 per visitor traffic. 4 traffic sources allow you to buy \$0.0001 per visitor traffic.

What is the main Ebook + Upsell all about?

- It consists of 7 traffic sources for the main ebook and 1 traffic source where you can buy \$0.000003 per visitor traffic.

How much am I paying for information?

- The cost of my main Ebook is \$70. The cost of main Ebook + Upsell is \$110.

How much is the initial deposit for these traffic sources?

- An initial investment of at least \$10-\$51 to deposit money on one of these traffic sources.

What payment method do you accept?

- Bitcoin

Is it possible for the traffic source to get saturated if many people knows it?

- No, there are many traffic sources like these on the internet.

What is your refund policy?

- After I sent you my Ebook on how to acquire cheap traffic, there will be no refunds.

Are you the owner of these traffic sources?

- No, I just discovered them myself.

What are the placements I can target with this traffic?

- You can also target countries, carrier, device types, device brands, browsers, and OS.

NOTE: I am selling a way on how to get cheap traffic, I do not sell the results to make money, the result comes from taking action about the information you have and that's something I simply cannot force anyone to do.

Don't hesitate to contact me if you have any questions.

3/3 vouch copies have been given out.

Review:

(Nov 4, 2020 07:58 AM)Winds Wrote: [CITE](#) Here's my review after trying this out and seeing the traffic sources that OP is providing.

The most important thing that you need to know is that this is pop traffic (unsurprisingly) ?

OP is providing a list of several pop networks that I personally never heard of. Keep in mind, I've been active in the media buying world for quite some time, and I'm a member of STM & AffLift. It's pretty hard to find these networks, so OP definitely did a good job there.

I've seen a lot of people that are saying that if the claims are true OP "shouldn't release this". My questions is... why? These are ad networks, if the CPCs are this low you can assume that they'll not run out of traffic soon. This can't get "saturated" unlike what some people think.

And as for the CPC, well it's true, but you have to understand a couple of thing:

- This is extremely low quality traffic, but that's not a bad thing. It just means that if you have a way to monetize this, then it's perfect for you.
- By bidding for the lowest CPC you'll obviously get the lowest quality traffic possible (when the bid is higher, you get better traffic, that's how it works with pop).
- Don't be fooled, this is not safe for AdSense (obviously), it's not because of the ad networks or the

method, it's because the fact that Google will ban you if you get pop/push traffic.

You should purchase this - but only if you know how to monetize this. Like OP said he won't provide any "money making methods" for this, just the traffic sources, which is perfectly fine in my opinion.

OP is doing an amazing job in terms of support. He also gave the contacts of each network which is pretty good as well. The networks are untapped, like OP claims - you can't find these easily, at least not as far as I know.

Thank you for the opportunity to review this and good luck with sales! Now, everyone who were interested in this and have a plan to monetize - buy this ASAP!

(Nov 11, 2020 01:54 AM)Herion Wrote: [\[CITE\]](#) Can confirm that you actually can get a ton of visitors for an extremely low price, they ain't of the best quality but what do you expect? Next to that, does it even matter? There are plenty of ways to monetize even bad traffic, it's still traffic. Also if you pay more you'll get higher quality traffic, it's that simple.

Even though I haven't tried it myself with CPA or anything related but with such low bids I think you still might be able to make a profit if you have nicely paying offers (Such as crakrev's 55 dollar ones).

It's pop traffic but I did not know any of the networks myself, and I used quite a few to promote adult CPA offers.

Thank you for letting me review this, if you know what to do with such traffic this then go for it!

(Nov 24, 2020 07:20 AM)moneymo23 Wrote: [\[CITE\]](#) My Review:

First I want to apologize to the OP for taking so long in posting my review for a vouch copy he gave me. I was able to try out two of the sources from the list of traffic sources he provided, and the traffic is indeed extremely cheap. You can get visitors for \$0.00001 Per Visitor as stated in thread. What I noticed is that these visitors aren't of the highest quality, but at the same time its Pop traffic and you are only paying \$0.00001 Per Visitor. I personally was not successful in monetizing the traffic, however this traffic can be easily resold. The OP also provides other sources that I was not able to try due to budget and time. If you are someone who is looking for traffic, or even looking to make some money, this guide will be useful. For the making money part, as I said before you can resell the traffic. OP is very helpful in answering questions and providing support for the traffic sources he has used. Thanks for the vouch copy and I apologize again for the delay.

(Jan 26, 2021 09:39 AM)WallStreetBets Wrote: [\[CITE\]](#) My review:

The method is nice and the seller is friendly. The traffic is really cheap and you can benefit a lot if you use the traffic for personal uses or resell it. Vouch for this method and the seller!

Don't get me wrong, but you are not offering a refund after you delivered the ebook, correct?

Does that mean the method to gain traffic is guaranteed?

I do think \$60 is a bit high, but I'll wait for other member vouches to see how that folded out for them.

Yes, I have my reason of not offering a refund because I am selling a golden piece of information that I personally use myself. It is not like after knowing the information I am selling, you will request a refund. That's not fair for me.

It is guaranteed that you will get traffic for \$0.00001 per visit. I have done it many times myself.

And yes, \$60 is not high for the information I am selling. I'm going to increase the price soon because I just know the value of this information.

The most important thing that you need to know is that this is pop traffic (unsurprisingly) ?

OP is providing a list of several pop networks that I personally never heard of. Keep in mind, I've been active in the media buying world for quite some time, and I'm a member of STM & AffLift. It's pretty hard to find these networks, so OP definitely did a good job there.

I've seen a lot of people that are saying that if the claims are true OP "shouldn't release this". My questions is... why? These are ad networks, if the CPCs are this low you can assume that they'll not run out of traffic soon. This can't get "saturated" unlike what some people think.

And as for the CPC, well it's true, but you have to understand a couple of things:

- This is extremely low quality traffic, but that's not a bad thing. It just means that if you have a way to monetize this, then it's perfect for you.
- By bidding for the lowest CPC you'll obviously get the lowest quality traffic possible (when the bid is higher, you get better traffic, that's how it works with pop).
- Don't be fooled, this is not safe for AdSense (obviously), it's not because of the ad networks or the method, it's because the fact that Google will ban you if you get pop/push traffic.

You should purchase this - but only if you know how to monetize this. Like OP said he won't provide any "money making methods" for this, just the traffic sources, which is perfectly fine in my opinion.

OP is doing an amazing job in terms of support. He also gave the contacts of each network which is pretty good as well. The networks are untapped, like OP claims - you can't find these easily, at least not as far as I know.

Thank you for the opportunity to review this and good luck with sales! Now, everyone who were interested in this and have a plan to monetize - buy this ASAP!

So in theory I could buy a huge amount of traffic to my competitors and then Google will issue them a penalty?

Thank you for your review. The reason why this kind of traffic source can't get saturated because there are many of these traffic sources.

I would like to address some parts of your review about the quality. You are correct about bidding the lowest will have the lowest quality. That's basically how it works in most ad networks and that's what the support of the ad network told me too. But I have personally experienced small success promoting some offers using \$0.00001 bid. I won't tell which kind of offers are those but those offers are easy to promote and convert. With that being said, I cannot really say that the traffic is totally LQ.

I agree. Don't use this for Google AdSense or even Youtube. It won't work there. They have a lot of

filters for this kind of traffic.

Yes, not many people know about these ad networks, you need to dig deep to find them. You can't easily find these on Google unlike some other ad networks.

I am not familiar with the difference between SERP and AdSense penalties, but I am referring to the penalty in general which drops your ranking in google for a long time. for instance if you get 500k backlinks all dofollow with spammy keywords.. and those kind of things.

Pop traffic is legal and you can't manipulate rankings just by spamming it, otherwise everyone would do it.

Can confirm that you actually can get a ton of visitors for an extremely low price, they ain't of the best quality but what do you except? Next to that, does it even matter? There are plenty of ways to monetize even bad traffic, it's still traffic. Also if you pay more you'll get higher quality traffic, it's that simple.

Even though I haven't tried it myself with CPA or anything related but with such low bids I think you still might be able to make a profit if you have nicely paying offers (Such as crakrev's 55 dollar ones).

It's pop traffic but I did not know any of the networks myself, and I used quite a few to promote adult CPA offers.

Thank you for letting me review this, if you know what to do with such traffic this then go for it!

My Review:

First I want to apologize to the OP for taking so long in posting my review for a vouch copy he gave me. I was able to try out two of the sources from the list of traffic sources he provided, and the traffic is indeed extremely cheap. You can get visitors for \$0.00001 Per Visitor as stated in thread. What I noticed is that these visitors aren't of the highest quality, but at the same time its Pop traffic and you are only paying \$0.00001 Per Visitor. I personally was not successful in monetizing the traffic, however this traffic can be easily resold. The OP also provides other sources that I was not able to try due to budget and time. If you are someone who is looking for traffic, or even looking to make some money, this guide will be useful. For the making money part, as I said before you can resell the traffic. OP is very helpful in answering questions and providing support for the traffic sources he has used. Thanks for the vouch copy and I apologize again for the delay.

The traffic came from publisher websites of the network I mentioned on the guide. A pop up window containing your landing page URL will appear if you click somewhere in the website for the first time.

It is not from Google, Facebook, Tiktok, and Twitter.

Is the traffic from real persons?

How much did you make per 100k views?

Where does the traffic come from? Do you have any idea?

How many traffic does it get/day? Can you reset the domain to gain traffic on while in campaign? Or are there ridiculous waiting times after that?

Where does the traffic come from? Do you have any idea?

How many traffic does it get/day? Can you reset the domain to gain traffic on while in campaign? Or are there ridiculous waiting times after that?

I got some leads using one of the traffic sources using adult CPA. Please check the results below:

The traffic are from real people.

Check these another results below:

These are the possible cost and profit from my traffic. However, results are not typical, you would have to test it yourself to know what works for you.

The traffic comes from XML feed.

You can get as much traffic as you want, with a bid of \$0.00001. You would have to target all countries to get high volume of traffic though and that's my ebook is all about, getting \$0.00001 per visitor.

What do you mean resetting domain to gain traffic?

(Feb 10, 2021 03:18 AM)Ampadle Wrote: [\[CITE\]](#) Is there a way to make a passive income using these visitors ?

There is definitely a way. You would have to test some offers though to know what works for you.

This traffic might be able to hurt your website because of high bounce rate.

But it is possible to target specific traffic? Like if I want dating traffic, gaming traffic, etc?

Did you by any chance test how it converts just to get some idea on traffic quality?

You can only target countries, browsers, OS, device types, device brands. This is not targeted traffic like Facebook or Google. It converts for push subscriber offers.

Yes, this traffic works for push subscriber CPA offers. Sorry for the late reply. I've been away on HF for quite some time.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Is this offer still available? I would like to pay full price for both traffic sources.

Is the price for this product still \$110. Ready to purchase.
