Yes, you read the title correctly.

I have an english assignment that's due tomorrow, it's suppose to be a presentation (google slides) but I'd have to create a voiceover. The essay is somewhat short (3 pages), I need someone who's going to dedicate their time into doing my essay and converting it to a google slides format so I can do a voiceover (a script will also be nice).

I'm willing to pay 40\$ USD but price is negotiable, I'm a nice guy :)

Willing to pay through PayPal.
