I remember watching this youtube video a long time ago and it recently popped up on my recommened and I decided to share it.

Basically, the video talks about how Jar Jar Binks was a master manipulator that was pulling the strings throughout the prequels.

I've never seen any of the star wars movies. Everyone says I should watch them though.

There are a bunch of theories on Star Wars, the only tapped side is mainly jedi. A bunch of people would love more sith stuff, but we will see if the fans get what they want.
