Thread: [\\$\\$\\$\\$\\$ Mentorship for \[BRAND NAME REMOVED\] \\$\\$\\$\\$\\$](#)

Justaboywithabag - November 1, 2020, 9:07 am

Lately with the recent [BRAND NAME REMOVED] updates a lot of people been facing major issues, but my methods are still working very well.

I'm not gonna sell any kind of ebooks or tutorials, but I will do 1 on 1 mentorship. Will teach you the proper setup/usage of [BRAND NAME REMOVED] accounts.

This is not gonna be some shitty ebook which guarantees hundreds of adds just in a few hours and making thousands of \$\$\$ a day.

With my method you will manage to extend the life span of your [BRAND NAME REMOVED] account and maximize your profits, and not at last I will teach you how to avoid getting shadowbanned.

My accounts can last up to even 2-3 weeks until it's not getting closed/banned/whatever... but this obviously depends on the usage of your account and on the saturation of your pack. If you're using a saturated pack then DO NOT expect miracles, also getting many reports will lead you to getting banned sooner.

All you need is a PC (with windows) , and approximately \$2 investment for each account (if you want to get out the most of your account you will have to do further investments for [BRAND NAME REMOVED] plus / boosts) .

Telling you again, DO NOT EXPECT MIRACLES, I'm not trying to sell some shit guide like most of the people do, I will guide you through step by step and will mentor you , and not at last will provide very useful tips.

Each running [BRAND NAME REMOVED] account will give you around 25-50 ADDS EACH DAY (yeah not hundreds and thousands like most people say whom are selling their shitty ebooks). So let's say if you're running 5 accounts you will get a decent amount of adds, but still do not forget... YOU HAVE TO PUT IN WORK in order to profit of these adds.

Price : \$200 (BTC/ETH/LTC/PAYPAL/CASHAPP)

[

My method / workaround works with the current state of [BRAND NAME REMOVED], for both manual/automated usage.

From the minute you purchase you can see that OP knows his shit not only with [BRAND NAME REMOVED], but with ewhoring as a whole. Although I don't do ewhoring I still needed some of his tips to make my offers convert better and these tips are very smart. OP is extremely responsive (unlike a lot of sellers here), has a big server with a bunch of people that can help you, and his [BRAND NAME REMOVED] method works flawlessly. You know that a seller is good once he shows you concrete proof that he does what he teaches you on a daily basis and that's exactly the case here, which is good because if [BRAND NAME REMOVED] updates their algo you'll always get the latest updates first.

If you need [BRAND NAME REMOVED] traffic, THIS is what you should purchase, not some overpriced bullshit that costs \$500 that does worse than this. OP is completely transparent with his results and they're definitely true.

Review of the mentorship ([BRAND NAME REMOVED]+eWhoring)

On 30/01 I bought the mentorship.

Here's the review of the mentorship after about 7 days of work:

I instantly got the pack I wanted from him and got all necessary information to start working on [BRAND NAME REMOVED] and Snap.

After I bought everything I needed and set everything up godM started learning me how to:

- Make [BRAND NAME REMOVED] account without getting shadowbanned

- Make Snapchat account and make it look believable

- Start making money with eWhoring horny guys

It was all fairly easy, although I have knowledge in most of these stuff, I needed guidance how to utilize it the best way and what to do exactly with certain tools.

godM was certainly helpful and responsive. Every question I had was answered as quickly as possible and he never didn't know how to answer my question. That shows that he certainly knows what he is doing and that he is doing the exact same thing that he mentors. It is not just bullshit that he did few years ago and want to make a quick buck with it right now, like the most eBook/mentorship sellers do.

Lets get to the numbers.

I spent around \$35-40 for necessary stuff that I need for this method

I made about \$210 in Amazon GC the first day I started eWhoring and another \$80 on Venmo.

Next day I didn't do anything, since I didn't have the time.

The third day of working on this method I made another \$50 on CashApp.

In total I made about \$340 working on this method for about 3-4 days (2-3 days of the mentorship I wasn't doing anything, since I didn't have the time).

Considering that the mentorship is \$200, I made my money back in about 7 days after starting it.

I want you to keep in mind - this is not something that you plug-and-play, this is real hustle. You need to work to make your money back. You need to have high social and English skills. Although, preparing for eWhoring part of the job is piece of cake, eWhoring and getting money is not as easy and requires time and skill.

godM certainly goes above and beyond to mentor you about every aspect of the game, although you need to do some hefty work yourself as well.

Don't expect miracles and don't expect the same numbers I made, since it will vary from person to person.

Good luck.

What is the bottleneck to scaling this thing to the moon?

I'm sure its difficult and perhaps not even possible. I know nothing about this system. However, just curious: what is preventing you from having 1 [BRAND NAME REMOVED] account in every major city in the US being run on autopilot?

Do not buy two open scam reports and he's not replying to discord after payment .

Method does not work and I had to figure everything out for my self(his manual method is a joke he just showed me how to signup) .

I was going wait and see if he would refund me before leaving this review but as you can see he can't reply to my case and he's not replying to try make up for it on discord .

He couldn't figure out why my botting wasn't working so he quit and stopped replying . It was a pretty stupid reason too that he could have helped if he decided to do what I paid him to do .

it's not your problem that you decided to "check stuff" and not reply? you did nothing to help me with botting and now you're blaming your unhappy client? wouldn't open a scam report if all you did was reply and say you figuring out still and give me tips.

you blamed my bio , yet when I did WHAT YOU SAID WOULD FIX IT , IT was an instant shadow ban even with that overpriced seller for resi you recommend even though I feel a lot comfier using mobile data as I did before and now. it works for me after I did my own tests without your help.

let's say it's all my fault that it's failing and I was not listening(not true you didn't help me once it didn't work as you wanted).

why did you lie to me ?

"Hmm, today/tomorrow i ll be testing out some new stuff for bht, will let u know the results and i ll share the stuff"

I WONT REPLY ANYMORE BECAUSE I LEFT MY VOUCH BUT IM NOT GOING TO LET YOU SHIT ON ME.

HERES THE SCAM REPORTS IF ANYONE WANTS TO LOOK AT IT
