<https://www.youtube.com/watch?v=PhmWMFRwQj4>

<https://www.youtube.com/watch?v=nEUMOnbyFkc>

how they rank all the time on youtube. and tools they are using, what bots, etc..

I just want to copy them and do the same.

live stream bot, multi account comment bot with rdps, probably custom made.

Yeah some form a massive live stream bot and a custom comment bot, I could help you make this. It would require hq rdps in order to use this on more then just 1-2 videos.

Means RDP Remote desktop access. He means to use someone elses computer/server to do the streaming. One IP address doing all the viewing would get banned by the ai.
