Small Investments are needed.

How big was your network to get those results? How much work does this need? Is this automatic?
How much investment did you make to get those results?

Waiting for the reviews from vouch copy receivers.

The guide has 19 pages in total and is really well written. The OP goes step by step on how you can start in CPA using the affiliate network he uses but he also leaves it up to you to find and choose other ones. The guide contains images to explain every step and also ways in which you can optimize your earnings. Setup time will take maximum 24 hours in my opinion (after getting approved by the network) and from then onwards, you can concentrate on earning and tweaking to maximize earnings. I think the price set by OP is reasonable and he can add another package with mentorship and add a 100\$ more to guide people by holding their hands throughout the process.

Please bear in mind that this is not a get rich quick scheme. You set it up and keep on grinding to see the money flow. 30 minutes to an hour daily and that should be good enough for monitoring, tweaking and maintenance.

There is one more suggestion I could think of and I will notify OP via pm/convo.

No, you don't need to get insta followers or have a big account or anything of that sort.

You can do it with your personal account or a brand new account.

Pa1N - November 10, 2020, 4:56 pm

I've got the method and is totally worth it's money. I've watched over 100 hours on youtube about CPA from different channels and not only that none of them mentioned something like this but this is a step-by-step guide with images.

None of the steps are left out like in other ebooks out there!

This method requires a small investment to start. You need 1 or 2 domain names which you can keep for long time and about 20\$ more to get the money flowing. This is a method you can scale and won't get saturated.

I will post an update later with my investments and profits

It is a specific method how to make money with CPA using Instagram as a traffic source.

General knowledge about CPA can be found on google, i'm selling a private method.

Furthermore the guide is 19 pages long and i explain everything in details with pictures, so even complete newbies can make it work.

It was an step by step CPA lecture for an affiliate network most focus on MaxBounty.

The guide is really precise and written on step by step method. It also gives insight on how to get approved for your affiliate application. It also shows the steps on how to optimized using your Instagram account from the very start to the point on how it will give you some earnings.

OP makes it really good to share this method and I guess even those who are new with the Affiliate marketing will definitely get to understand what have been written. One more great thing is he is offering 24/7 support on guiding throughout the process.

Review:

I've just purchased and read the method.

It's a detailed guide explaining a simple yet very effective method.

It's a white hat method and has good earning potential.

Of course you need to take action, specially in the start. But I can easily see the potential.

In a few weeks I'll test the method and will share my results on this thread.
Don't have time to implement it right now, but I know it will work.

Seller is also very kind and ready to help.
Overall I recommend it.

All the best.
