(Nov 7, 2020 09:54 AM)Riksen Wrote: [\[CITE\] PsiSolutions](#) was nice and gave me the Gold pack to review.

I was mainly interested due the claims that his [BRAND NAME REMOVED] accounts work without any issues and even though I knew most of the info he wrote, I still managed to learn a few new things that I will try them when I get the time.

As for the ebook itself:

The main thing the ebook is going to focus about is how to start ewhoring from scratch, and he gives every detail that a newbie will need to understand. Im not a newbie myself but I would HIGHLY RECOMMEND it to people that want to get into it.

Design:

The ebook was was designed very well and attractive but I would suggest OP to add more pictures (once again thats my opinion).

Profits:

Will you be able to make your money back with some profit? definitely, will it be easy? no, there is no such a thing "easy money" as hard work pays off.

Price:

The only difference that I could tell by the ebook packs that some doesnt include the girl packs and atleast in my opinion, I would sell them in different thread and focus more on selling the ebook itself because its A BIT pricey (at least for beginners).

Support:

I myself didnt need any support as its a vouch copy, but I would imagine how difficult it can be for newbies and my suggestion over here to save OP time and others is to open a discord server where people could ask questions and help to each other to succeed.

Overall:

I would recommend buying the lower ebook packs because they contain enough information for anyone that is looking to start from scratch with zero knowledge.

9/10 for design. Information is well laid out and contains a lot of easy to read and simply put together text. I personally like the color combination OP was going for with this.

8/10 for the actual information in this ebook. Nothing is actually ground breaking. The [BRAND NAME REMOVED] method is quite simple, I've used it before. It works. I would be willing to take a vouch copy in exchange for a detailed and thorough review.

LuxuryModelNetwork - November 4, 2020, 7:09 pm

I received a vouch copy from op about a week and a half ago. In that time I had an issue related to the ongoing pandemic which is why my review is only getting posted now, If OP reads this, I am deeply sorry about that.

This review was made from the bronze review package I received, this was done before the update

OP mentioned on page 2. If i am given the updated version i will edit this comment with the new

Length and format. (9/10)

The format of the Ebook flows nicely without repeating itself all the time. If you have e-whored before you will know some of the information regarding the basics but it is still good information to be reminded about. the length of the ebook itself is 24 pages, these pages are filled with information that's sure to help you even if you utilize the method shown in the ebook or not.

Originality. (9/10)

Even though you can hardly call [BRAND NAME REMOVED] an original method, the automation part of the ebook I would call original. It does require some investment up front, but I would argue that most/all automation of e-whoring is not free. expect to spend a little money to automate, which can, of course, be made manually till you can automate.

Traffic sources. (7.5/10)

As OP Clearly states in his post the method he talks about in the ebook is [BRAND NAME REMOVED]. that means you know what you are buying when you are getting this Ebook, [BRAND NAME REMOVED] is not a new method, but it is a quality method if you know how to use it.

The ebook teaches you the basics and how not to make the common mistakes so many people make when they start out. if you buy the ebook and utilize the information given to you in the right way you will find success, and then you can use the automation method as you get more comfortable with gaining traffic.

That does also mean that if you fail with [BRAND NAME REMOVED] there is NO backup method, so you have to be willing to accept that.

Other. (9.5/10)

I personally feel like the price for the bronze version is well worth it, you get a lot of information you can utilize not only for [BRAND NAME REMOVED] but also for other methods you might know yourself, Seller is patient and understands the issues you might have along the way.

with that said it has to be mentioned that if you buy the bronze version then don't expect to be given a million-dollar pack. the pack supplies to you will work if used correctly, but it is up to you to upgrade from that.

the profitability is high when it comes to [BRAND NAME REMOVED], even if you don't go into the black areas with meetups and so forth, I would highly recommend this ebook for the beginner as well as the intimidate level whore out there.

Method still working as of 11/8/2020! [BRAND NAME REMOVED] account going strong! Here's my adds from 5 minutes of swiping then stopping:

Spoiler ([Click to View](#))

You can generate a lot more traffic than that, but with this method since we are not selling nudes or vids this is all we need! With this method, quality trumps quantity every time!

Will update with conversion rate and profit of my newest batch of adds! Get it today and start owning [BRAND NAME REMOVED]!

Driz - November 8, 2020, 12:34 pm

I read the ebook and there definitely is a few methods which I have not seen more, it's not technically ew but it's on the same plane. Doesn't require the sale of vids or pics but I guess that boils down to your business idea.

9/10 for design. Information is well laid out and contains a lot of easy to read and simply put together text. I personally like the color combination OP was going for with this.

8/10 for the actual information in this ebook. Nothing is actually ground breaking. The [BRAND NAME REMOVED] method is quite simple, I've used it before. It works. Definitely hit or miss but if anyone is willing to try it, there definitely is room for reducing operational costs. Some of the methods mentioned in this are not specifically cost effective, but gets the job done.

I'd rate this book 8/10 because of its design, aesthetic and information. Again, not anything ground

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
