I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

If you have an opinion to express towards me or against me, make a community alert. Don't be a bitch and sale trash my thread with accusations that you're unfamiliar with.

Its not trashing, its warning other members that do decide to deal with you that you have multiple open disputes on you and to deal with caution. You also want users to go first and/or pay for the middleman fees when you're the one looking to exchange your cashapp to bitcoin. Fuck kinda ass backwards shit is that lol

This is your third post in my sale thread. If you wanted to warn users then you should've edited your first post with the proof that you've collected towards me.

You're just scraping through my threads right now as we're talking and everytime I reply to you, you add another "proof" towards me as an answer towards this debate.

I have only 1 Deal Dispute opened which has been indeed resolved and 1 community alert from a user who I haven't dealt with in this forum.

Dispute is still up,
