Lmk either way, I've had this \$25 in Cashapp and don't know what to get with it really, I need the Cashapp card to spend it on what I want.

I got BTC but my fees rn are like \$12 to send all and \$14+ to send less, it's weird, Exodus kinda sucks now.

I pretty much came in to share my appreciation of the sig buy too, Proof is a chill guy and great vendor.

As usual, what's on my profile does not reflect the bytes I have. I do not keep them onsite.

Please feel free to contact me for bulk rates, willing to work with someone to offload 500k-1M.

Rionxee - October 4, 2021, 5:06 pm

I briefly remember being a part of this service, I think I bought it off a different forum. I've been looking for it ever since I lost my PC because it was my first attempt at trading and I made a pretty penny with the calls the analysts made.

LEGENDAVIE - October 17, 2021, 11:40 am

Proof gave me a really good deal on 25k bytes. He was nice to deal with and waited for me to get the bitcoins. I totally recommend his service, good luck with sales!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
