Thread: [BitRat License w/HVNC + FUD Crypt | \\$199](#)

**B.O.T** - November 12, 2020, 2:29 pm

I'm Selling my Bitrat License with HVNC that comes with a crypted tor stub (FUD ST/RT) for \$199.  
I will go first in the transaction as I'm new, I just want to deal with someone trusted.  
Also comes with 5-10 bots.

Check conversation please, I need to discuss something about the license.

Not at all, I am looking to sell it because the past few months I've had it I've been learning C++ and have coded my own console based RAT!

(no not for sale lol) anyway bitrat is a great tool, I just wanted to make my own to learn and so I can sell this and have an extra \$200 :D
