Thread: [Can I use the gift cards bought on amazon.de/amazon.com on amazon.it?](#)

Mavenes - November 16, 2020, 1:02 pm

I live in Italy, but I intend to put my fake account in Germany or the USA.

If I ask to be paid in amazon gift cards, is it possible to use the gift cards bought on amazon.de/amazon.com in Italy (on amazon.it)?

If I enter the code on amazon.it of a gift card bought in a foreign country, is there a risk that my account on amazon.it will be banned?

No, you cant use codes from websites based in other countries in the one of your own country. Pretty sure you could order from .de and let it be sent to Italy, but that might be only for certain items. (Mostly the higher end ones etc)

Nope, .DE gift card can only be used on Amazon.de, .COM gift card can only be used on Amazon.com, etc

See if you can buy something from Amazon.de and let it ship to Italy

If you can attach a credit card (one that is working), but pay for it using gift card balance.
