Thread: [Snapchat Manager - Schedule Stories, Accept/Add Friends, Send DMs \[AUTOPILOT\]](#)

SIM-2362662 - November 19, 2020, 5:04 am

This service is intended for people managing multiple snapchat accounts!

How does this work?

You tell me exactly the way you want your accounts to be managed (how many stories to be posted every day, what links for each, delay between posts etc) and I will take care of the rest!

Is this safe for my accounts?

I have been managing Snapchat accounts for over a year, developing multiple safety systems to assure your accounts are in safe hands. Logins will always come from different IPs, auths are saved to avoid logging in more than required and all the stories uploaded are being uniquified beforehand (this is a complex process I developed in time. It makes sure Snapchat doesn't recognize your content. I can offer more details on demand)

What do I need to give you?

A list of accounts you want to be managed, content (videos as pics), links, and desired times. Also any other info you might find relevant.

Whats the price?

Contact me. The price depends on the number of accounts and content.

Is story posting the only thing you do?

No. I can also accept/add friends and send DMs. PM for details.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
