I am interested in investing in \$1000. If you have a method or any ideas, please PM me or start a conversation. I need to know the details and your proposal and plans. You can message me on discord too.

I am looking forward to hearing about your proposal.

How could you have added him on discord when he only deals on site.. Clearly states in his signature. Don't know if your trolling or your going to get scammed.

If you don't want to do anything risky with it I would recommend waiting for the next BTC drop which should be soon then buying into it. Prices are extremely high right now, should eventually drop a ton.

Yeah, basically find a CPA offer, then promote it with Push Notification ads, the little fuckers that appear on the side of your browser or your phone.

Take a look at this case study for reference :
