Thread: [Insert products and categories into WooCommerce.](#)

Flexible - November 21, 2020, 7:40 am

Hello!

I am a web developer myself, and I currently do not have time or patience to manually add ~20 Brand categories, and ~180 products. I am offering a reward in BTC for this task.

I will provide the sources, it is just a matter of copy/pasting the stuff.

Previous experience with WordPress and WooCommerce is required, so that you already can orientate what and where is located, and how it all comes together.

Gracious - November 21, 2020, 6:03 pm

Interested. Sending you a PM now!
