Thread: [SECURITY RESEARCH HALL OF FAME \(HOF\) ENTRIES | FACEBOOK, GOOGLE, PAYPAL, EBAY, MORE](#)

Hiwhatsup - November 21, 2020, 2:36 pm

Want your name listed in the Hall of Fame for a major website

PM me and I can find a vulnerability in the website listed below and report it under your name so you get listed in their Hall of Fame.

I have my name listed in so many that at this point it doesn't do me any more benefit than if I am to get some side cash.

Current sites I can get your name and usually link attached (SEO !!!)

Google - \$1000

Microsoft - \$750

eBay - \$400

PayPal - \$600

Sony - \$2000

AT&T - \$300

Oracle - \$100

Facebook - \$2500

Apple - \$2000

Some sites will be more expensive than others (for example, Google will be more expensive than something like Sony or AT&T)

If it is through HackerOne or Bug Crowd, then price will be determined during sale. ALWAYS OPEN TO OFFERS.

Willing to provide proof / use MM!

PM for more details.

Definitely need some proof. I could do a vouch if you'd like but need some proof.

The proof is in my resume. Also, i am long time seller so if you know then you know.

No vouch copies, sorry.
