READ MORE BELOW (overview)

This account is very early on in the game, the highest level of character is 40, and the account is ready to be played and mastered. reason for selling is i just dont have any interest in playing anymore. Xiangling is very strong with the maximum constellation tree possible. 2k+ spent that makes it include tons of blues and purple weapons+items you get from opening wishes. ?

PRICE ??? ?

Looking to post a feeler out there, price is undetermined, but i am looking for crypto currency, if your interested PM or comment your offer

NA, i still have the account

this account is still for sale, and it hasn't had an email linked to it yet, i would let it go for less than market value as i haven't touched it since i put a couple grand into it for wishes(random rolls) lots of 5 stars and tons of 4 stars
Maxed Xiang (with 2 options for 5 star weapons)
2x Diluc
(2 of the best fire characters to go together + bonus for same elemental roll)

How do you sell a Genshin character and/or weapons? I have an account with a few strong characters.
Uninstalled the game, so why not make some money off it.

by selling the entire account, there is a market for stacked accounts
