hey everyone,

I have several RDPs running several different ewhoring accounts with kik and [BRAND NAME REMOVED].

I have plenty of packs that i got off onlyfans.

Im at the point where i have too many customers to manage it all myself.

I take care of traffic (i have bots for that)

What i need from you is to talk to the clients and land sales

Experience is preferred but i can teach you if youre new

Profits will be split 50/50 on each sale you get.

Leave your Discord or PM me to discuss

Cheers
