Thread: [Google Redirects on HF](#)

Lrrr - November 23, 2020, 9:10 pm

I swear I'm not smoking crack, but I am high and mobile so anything goes.

Right now I keep getting redirected to google as a main domain for HF. As in if I click my profile it goes to google.com/members.php

I fixed the issue by deleting my mobile cache but the issue is not intermittent. It appears to happen most often when I try to see a convo or click the my profile link from the drop down mobile menu

Target™ - November 23, 2020, 9:10 pm

Not happening for me on desktop, any one getting this?

Lrrr - November 23, 2020, 9:11 pm

[Driz](#) reported the same issue in convo

Yeah, but i am runnin on mobile, not a problem bro.

Nico - November 23, 2020, 9:13 pm

I've seen others talking about having this issue. I'm on mobile now and have no issues so far.

Driz - November 23, 2020, 9:14 pm

I having this on PC, had to switch to a different browser(Brave) to get it to work.

Lrrr - November 23, 2020, 9:14 pm

This is so bizarre. [Xerotic](#) any advice?

Android running Chromium i will not divulge exact version

Herbert - November 23, 2020, 9:20 pm

It looks like I got signed out on mobile.

Lrrr - November 23, 2020, 9:21 pm

I'm sketched out..... [Omniscient](#) this legitimately seems like a simple misconfiguration but just incase it's not I want to tag you

Omniscient - November 23, 2020, 9:21 pm

Do you use Firefox? It's because of a cache from a 2 minute alteration I did. Firefox seems to hold the cache. You can try a "CTRL+SHIFT+DEL" and delete recent cache.

The issue for me is chromium on android

Dorrance - November 23, 2020, 9:22 pm

I had this same issue on chrome it was like I was signed in but I wasn't.

I did NOT have that problem. My login was fine after I deleted my cache but I still get redirects to google

Herbert - November 23, 2020, 9:24 pm

The odd thing is that the navigation bar text is green..

I can report that IS what my login screen looked like. The SSL was valid so I trusted the login.

I realize when I type on mobile I sound like a retard.

Lyrlei - November 23, 2020, 9:41 pm

I've also had this awhile ago while opening contracts, it redirected me to google.com/contracts.php

I'm using Chrome incase that helps. Exact issue

RTKN - November 23, 2020, 10:02 pm

I experience this when I'm using chrome, Using Mozilla right now, and it's working fine

Not me. I been getting that captcha error off and on though.

DanteFox - November 24, 2020, 2:06 am

Still catching the same error. on Profile page.

Michael - November 24, 2020, 2:18 am

I have yet to encounter such issues.

Guess they'll be fixed soon.

Lrrr - November 24, 2020, 10:44 am

The problem does not seem to happen this morning yet
