Thread: [Custom made bot \(C# required\)](#)

Perileos - November 24, 2020, 1:50 pm

Hi,

I'm looking to get a bot made, which needs to be in C#.
Essentially the bot is for a webbrowser game which needs to be automated.

What I need:

- Licensing system for the bot. Using MyBB so some PHP might be needed.
- Bot itself doing various of ingame functions. I will give a detailed list upon contact.
- Proxy, multi accounts support is necessary.

Payment can be through PayPal or Bitcoin.

Message me with your Discord.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

There is a little bit of a rush for this.
Please contact me asap, reasonably an easy bot to make.
