I have started a convo and sent my discord, i'll be waiting for the add and the contract ?
I received my vc, 30 rounds.

This is literally insane, you get special powers, speed is x50 or whatever, you dont have to reload, and you shoot extremely fast even with sniper rifles.
Leveling is a joke with this, it goes really fast.

Pricing is cheap for sure.
I went from lvl 10 to 30+ with my sniper and 15-30+ with my mp5 in 10 minutes so imagine buying an hour for \$6

I recommend this service, i like it.
