eXemist - November 28, 2020, 2:42 pm

Hi Rolexx,

I am interested in some installs - due to your new account status on the forums I have some questions. Are these bots saturated with malware/ransomware already?

I have messaged you on Telegram.

Thank you,

-eXemist

Purchased a test package of 100 installs for \$12

Can you offer any sort of guarantee? I bought \$80s worth off another user and only got like 40, and a lot were locked with ransomware. I wasn't expecting anything special but out of 1k to get 40? and at such low quality?.. Waste of money.

If you get such result i suggest you , check twice the exe soft you want spread , and test it before too be sure about infection rates

i see many people try using exe over 5-10 mb with crap crypt with 2mb stub its pure suicide in 2020

only guarentee you have here is we execute all Bots on your exe file ... rest is under your hand

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
