Who are you bullshitting? XMRIG is free and it takes under 10 mins to set up, you can have unlimited builds. Making them silent can be also done for free or you can purchase super high-quality tool for 5\$. Not to mention 95% of the crypters also offer these features, so for your price you can actually get it FUD as well, and save 50\$.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
