To think I felt bad for reading your last thread and seeing you get negged, I now get why you got your popularity fucked. I don't even have to go back and read further posts on your account it was clear as day you have malintent. If you hate this forum so much get off the site? Or actually, maybe get up from your computer and go outside? You're just another multi who gets into an argument, gets negged once, and then throws a hissy fit. Nobody likes cry babies, you might've had a shot if you didn't blow it for yourself.

Don't be.
Although I'd advice you to try make money in a legitimate way, it'll make you feel way better.

I tried with my last account, it went 80% good, the other 20% bad, it takes a lot of time and money, i have the time but now i just needed money, since i didn't have them, i went the easy way, Scamming.
Might be shitty, but it is what it is.

I only have one answer for that - mad kiddo in front of the keyboard?????

Something went wrong in your life, my friend, that's why you take it out on words?

Oooooo it's so shallow, instead of offending others here just go from here and don't come back and keep your opinion about others to yourself?

Put yourself in the other parts shoes.

They probably work hard to make a buck here and there as well, but end up getting scammed.

Kant Atta - December 1, 2020, 8:31 am

Not everyone on here is selling their shitty e-books.

With that being said would you be interested in learning how to create your own netflix?
