It's that funny I won't even do it back, love you :D.

Let's get riiiiight into the news...

First of all, BIG drama in the deal dispute section. Prominent HF members are arguing over a \$20 Poker tournament buy-in. Do you think Zeus should give a refund or do you think he is right to deny it?

And should Omni ban shady Terms of Services on Sales Threads? This will be a story to keep an eye on.

In other news, a slightly mentally challenged multi who we know as Alex has returned making his claims about being a Prophet and a billionaire who see's the world for what it really is.

Now let's take a look at THIS MESSAGE from a long-term HF user that led to a perma ban from Omni outta nowhere. Watch out for our all-knowing overlord. He knows where the ban hammer is, that's for sure.

ANDDDD finally let's dive into the crypto section where Focus Broken and Shreder are comparing dick sizes and the merits of Bitcoin vs Ethereum.

Post an interesting thread in the lounge lil homie, get some discussion going and you'll be posting mad amounts before you know it! Ask HF if they wipe from the front or from the back, or from the side, and you'll get some surprising answers I'm sure.

I remember that guy. I was trying to watch an interview when the Lizard Squad thing was going on and almost closed the video as soon as he said let's get right... into the news.
