Thread: [OnlyFans: Subscription Service - 3 for \\$10 \(250,000+ Models - 400TB\)](#)

DATAHOARDER - December 3, 2020, 1:00 pm

Service Details:

Models are \$5 each or \$3 for \$10.

I support male, female, and anything in-between; models.

If the model has paid content, it will be included in the folder at no extra cost.

If you buy something each month, I will update all your previous month's orders for free.

Right now I'm currently updating hundreds of models each month for hundreds of people so it takes awhile.

Cloud Host: <https://mega.nz>

I will create the folders and send the links. The content may still be uploading so don't worry about "empty" folders.

Folders should stay up on mega for at least a week (almost guaranteed) and then I may delete them if I run out of space.

Quality of The Files:

They're downloaded straight from OnlyFans; at the highest quality and resolution. I don't do any of the reencoding nonsense, so A 1-minute 8K video that's 10GB? That's what you'll get in the folder ?.

What I Don't Do:

I don't do fraud (eh maybe one-day lmao) to get subscriptions, so I can't get EVERYONE you want, but I do have over 250,000 models to currently choose from so there's a good chance I've got it.

Cripple the quality of the files.

Vouch copies - Ubers or users with high reps only (0/3)

Payments (Order of preference):

Crypto, PayPal, Cashapp.

PM me on HF.

Extra Details:

(I've downloaded 70,000+ models since June 2019. These are not public Megas or any of that regurgitated trash, they're directly ripped from OnlyFans by using DIGITALCRIMINAL's GitHub script (which has been modified?))

Currently, the archive is around 400TB which includes deleted accounts (I'm not selling the whole thing but I am interested in partnering with resellers, so if you can prove to provide income, hmu)

TOS:

No refunds, even if the model's content is trash?.

You are free to change your order at any time after payment before I send links.

Free monthly updates for certain models may not be honored since I may not have access to their subscription. (If I ever do have access again, they will be automatically included in the next monthly

update)
