Thread: [Exodus \(btc wallet\) fake balance - DEV needed](#)

kinkshamingbad2 - December 4, 2020, 11:32 am

sup

need someone to either get a way to fake exodus wallet balance and transactions with some public address swap

other alternative is to copy/steal their UI and fake the transactions etc...

whatever you do idc as long as it works,

middleman only, \$75 budget. ?

yea but this wont stick on refreshes and stuff, I know for a fact there is a way to spoof the public address.

i had it made already few years back for some fun trolling

even worked along with trezor etc ?
