Thread: [Web Automation | Contract Programming](#)

Glock40 - December 4, 2020, 6:34 pm

OLD THREAD: <https://hackforums.net/showthread.php?tid=6115218>

A couple of vouches can be found there, I have made this thread because I have gained a lot of skill in the past 2 months and would like a more professional thread.

TOS:

? No refunds after a project is completed.

? 50% of project cost must be paid before project start. You will be refunded in full if for any reason I cannot complete your project.

? I am not responsible for the use or any legal issues that might come if you contract me.

Recent Projects:

?CryptoRipper - .exe clipboard getter and setter for btc and eth wallets

?TribalwarsBot - Multiple modules to automate the webbrowser game "tribalwars.us" with a acc gen

?Multiple Projects to implement algorithms to automate online gambling (primedice.com, bustadice.com)

?Android emulation automation for Instagram

?Various request based projects, antibot reversal

Extra notes:

? Communication is key so please be available to talk on a consistent bases, I will have questions.

? I make all sorts of things so whatever you have in mind, im confident I can do.

? Pricing is done on a case by case bases.

Cheers!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Hope you don't use selenium, but good luck with sales.

It depends on the project, if the use of javascript is needed on a website, I will use selenium otherwise all my projects are request based.
