I guess I've lost more than that on the bytes flipping on the chat box :D

I lost 3k one time on blackjack. Luckily it's just bytes.

Lavish Living - December 5, 2020, 7:36 pm

I've had multiple 100k+ losing sessions on slots.

Also lost 670k bytes in sportsbook. On 3 bets

Rev - December 5, 2020, 8:29 pm

These numbers y'all throwing out as losses scares me. Im too intimidated by that amount of 'currency'

d3 ? - December 5, 2020, 9:45 pm

to add more to this - just lost like 8k more on flips ? dubs

Asileux - December 5, 2020, 9:51 pm

You guys are addicted! Holy f, it looks like the sand casino.

Vitani's Mate - December 5, 2020, 11:33 pm

Probably around 100k through scratch cards. lol

But I won that back pretty quickly.

Lyrlei - December 6, 2020, 12:30 am

I lost 9K total now on flips, it's not much but it's still painful, I hope Stanley stops bullying us soon OP.

Artisan - December 6, 2020, 12:44 am

The most I lost in one go was around 120K. Happened to me thrice so I quit flipping. ?

Cooligan - December 6, 2020, 3:26 am

Not sure how much on slots, but I know I've lost around 25k inn one sitting in /flip before.

I already know just how much slots and blackjack can eat your Bytes so I tend to stay away from them.

Unless I'm going for the Dicey award that is lol.

Helltoy - December 6, 2020, 3:30 am

Slots are horribly bad now. Not sure if something has changed.

Now I literally can't win anything. From last I could say 50 spins I maybe got something once or twice.

Before it was just easier to win something.

Deany - December 6, 2020, 3:32 am

I think I've earned more bytes than I lost in slots and blackjack. Haven't played a lot though. I've lost a good amount on sportsbook though.

SIM-4816853 - December 7, 2020, 7:38 am

I dont use slots to much, but I lost around 15k in one sitting in /flip yesterday

A + - December 7, 2020, 9:52 am

Did you bump the bet price up when you lost the 20k?

I'm sure there are algorithms designed to spot when players do that. Because I have never lost more than 7 times in a row doing the same amount but if I ever go higher sometimes I lose 10+ times.

That's the way most gambling sites work. Omni is preparing us lol.

shreder - December 7, 2020, 2:19 pm

I think ive only lost like 9k maybe? But many times as soon as I got 4k bytes i gambled it away.

Rev - December 7, 2020, 2:39 pm

Most so far Ive lost, was maybe 1k since I use my bytes up.

Prawnster - December 7, 2020, 2:44 pm

I lost like 50k bytes on /flips in about 20 seconds

Tjm - December 11, 2020, 8:07 pm

Damn If I lose a few hundred I'm bummed, can't imagine some of your guys losses...Just came back after years and years so starting over everything from scratch. I'll probably never have more than a few thousand bytes because I'll gamble it all away ?

Yeah flipping bytes on the chat box will gets you lost all your bytes pretty fast.

Syborg - December 12, 2020, 1:18 am

Stop playing blackjack, even with that low house edge, it is all about luck and yourself.. i preffer to play games where it is only luck

Lyrlei - December 14, 2020, 12:23 am

Did the contest fail because of OP betting? this is the 2nd time I've seen this happen, which is sad.

Qwaiz - December 14, 2020, 1:16 am

I have multiple 4 figures lost in poker and bitcoin dice site.
