How comes you get this cheaper as omni himself?

Check the Upgrade page. You get 500 Bytes per L33T upgrade and 1000 Bytes per UB3R upgrade.

This could be a reason, but I'm unsure.

[Lrrr](#) whatever your reason is, I bet this will come in handy for many new members!

Interested in upgrading to lifetime L33t, but am also curious on the answer to this question.

Please respond OP.

This is exactly my method and why I am able to beat Omni's price I'm proactively buying the upgrade bytes at \$2/k.

Damn, this is really cheap and affordable. You can even pay with Bytes. I might purchase an ub3r soon with your shop. Good luck with your sales bro!

It is a great deal as long as it lasts. Who knows when it will end. Even if I have to eventually change my prices back to normal I will still always accept bytes.

We actually tied our deal to my pawn shop thread since we did other stuff not just upgrade. Please edit your post because its not a valid vouch for this specific service even though we have a contract and I don't want you to catch a warning.

So basically this bytes has monetary value. Pretty cool.
I will collect 7,600 bytes for that Uber upgrade.

Great service. Wish it last long.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
