Thread: [How to double dip cashapp and how long can a account last?](#)

ccx15 - December 6, 2020, 5:58 am

how do you double dip cashapp? ive tried paypal and works easily with inspect function but how do you double dip on cashapp? nd how long can a cashapp account last before having to verify driver license?

marc - December 6, 2020, 6:12 am

Heya! I've done an entire E-book+mentorship on how to do all that. A cashapp account can last anywhere from a day to 3 months. Depends on how many failed payments you get.

Cashapp charge backs are a thing, while I haven't experienced them myself my friend has been CBed twice.

And to answer OP's question you can find many different templates for cashapp double dipping all you have to do is just screenshot the payment and paste the double dip on top of the "COMPLETED". Also how long the accounts last depends on many different factors although I'd recommend making a new cashapp every few days to avoid scam warnings and to avoid getting locked as with the recent update you can't withdraw the locked funds anymore.
