Damn that sucks, honestly only deal amounts you wouldn't mind losing or do it in increments, even if it's people you've dealt with before

I mean now one wants to lose ~300 bucks but it isn't like it has affected my life really. Just blows because it negates the deals I was getting on Amazon lol. To be honest, I had been buying at 70% consistently successfully, so the price wasn't that odd. Odd part is that he had been trying to sell it for a bit.

Sucks you got scammed OP. Same thing happened to me when I was buying some AGC as well.

Seems like this guy is exit scamming.

Sorry for your loss @ op

Hopefully you can recover swiftly.

Sorry you got scammed. He's obviously exit scamming if he can be on here, creating threads, and not be arsed to respond to any of the disputes against him. What a piece of shit.

Do we know why this user is still able to be active on HF? Seems pretty risky has he still has some posting going on.

Blogger - December 9, 2020, 2:34 pm

Number one is why he's still around. HF doesn't get involved in deals and deal disputes. It's rare. I'm sure if he continues, something will change.
