Thread: [Let me do the scanning - Priv8 SQLi and XSS vulns - SALE](#)

xxx_player_xxx - December 7, 2020, 5:27 am

Hi guys.

I'm selling vulns. Got a BIG list of private SQLi and XSS vulns.

Selling / trading for the best offer. Every deal is a deal, gotta start somewhere.

If you are interested just pm me or post here.

Giving free samples in trade for vouches, for the first:

- 10 - to ask for it
- 7 - UBERS
- 5 - LEETS
- 3 - High Popularity
- 2 - Pro Hackers
- 1- Someone I choose

Enjoy.

This is kind of a scanner service, because I do the scanning and provide you with the vuln result. All I give is the vulnerable url, is up to you to exploit / report / sell / do whatever you want with it.

How this works:

1: You tell me what type of vuln you want:

- a) SQL Injection
- b) Cross Site Scripting

2: What type of domain you want:

- a) .com
- b) .edu
- c) .org
- d) .gov

3: From what country:

I got plenty to go around.

I will give you my offer, show you the domain I selected for you.

You offer me something in return, it can be whatever as long as I recognize value in it.

We close the deal.

You send me your stuff.

I send you mine.

Only serious customers please, I'm giving freebies, samples and vouches services to build the reputation, so don't come in late asking for free service.
