Nice, I actually bought Foley Trasimene Acquisition II Corp at 11\$ last week before they purchased PaySafe Group.

Made 4500 on a 20k investment in less than 4 hours, sold profits and still holding
people are saying its going to crash then go up to 50\$ by second quarter 2021

Ahhh I was looking at BFT too but I haven't bought any shares yet. Gonna wait for a dip. Good for you man!

I'm up over 100% now on TRNE/DM :) Trimmed some profits at 80%, holding now.

It's funny my mother is one of the old CEO's of PaySafe Joel Leonoff's best friend. They went to school together, his wife and my mother are best friends since high school as well and she's the one who gave us a heads up.

Little fyi, when it dips buy in big, will easily hit 20\$come first quarter. Big things happening which I'm not at liberty to say
