Thread: [Add HUM quick link to user profile](#)

Lrrr - December 10, 2020, 1:28 pm

Sometimes I don't like what a user has to say and I want to murder their HUM. It would be nice if there was a quick link on user profile page that redirected to the HUM search page with the user already set in search criteria. This would purely be for user experience.

I mean you already have the search tab in the game itself. You can only see if there are not invisible.

Always tryna bully hmmm.

All I'm suggesting is a quick link for better user experience

lol That'd be handy. I'd definitely use it. Maybe it would make more people play the game.

Could be a nice feature i guess but like what dorrance said its pretty easy to find the users there. Im just waiting for the HUM Black market when we can start trading them :P

This is a great idea I hope it is implemented.
