Thread: [\\$16,000+ on Shopify Last Month & Found my perfect Niche & Methods](#)

Real Estate - December 11, 2020, 12:29 pm

I lost my full-time job due to Covid but decided to start my Shopify business up again! Just a little motivation for anyone struggling right now. Take action and create something, put a little time in everyday, and you'll see the hard work pay off. The hardest part is starting! Once you start, it's all dedication from there!

Costs:

\$10 domain name

Free Shopify Plan

\$10/week in ads for Facebook, Instagram, and Google each.

My time building the store

\$50 stat instagram

\$20 for followers and likes

Honestly, i didn't expect my store to do this well, but I think this will be my come up for a while until I find another full-time job (need health insurance lol)

Let me know if you have any questions! I'd love to help some people get the ball rolling on building a digital enterprise.

Sent a PM, congrats on the earnings!

Chief - December 11, 2020, 12:43 pm

Congratulations OP! What's your profit margin looking like? Drop-shipping I'm assuming?

LoremIpsum - December 12, 2020, 1:36 am

About \$26,30 per sale, I assume it's drop shipping with a nice ROI.

Congratulations with your new store! \$16k is a great achievement, especially for a new store and only \$30 in ads per week.

Usually the profit margins are 10-25% so he didn't earn too much from it. assuming he earnt 20% so he ended up only with \$3200.

Still nice though thanks for sharing with us op.

Profit margins can be way higher, if he buys bulk for \$5 or \$6 and resells for \$25~ for example. I think OP is the only one who can be sure about his revenues and profits.

If it was \$3000+ he still had a nice month!

Fortunate - December 12, 2020, 6:54 am

Really interested in your profit margins, essentially sales can be high but with low profit margins. Great achievement, best of luck with the journey.

Cooligan - December 12, 2020, 6:55 am

Huge congrats OP, those are fantastic earnings especially for only one month.

Keep up the great work man.

What do you sell exactly?

?4H4? - December 15, 2020, 7:52 am

Congratulations! What's a stat Instagram?

Yin Yang - December 15, 2020, 7:53 am

Nice earnings you got going!

SIM-888979 - December 15, 2020, 7:59 am

LOL, fake proof. Nice. ?

Picture says Nov 3, you said last month. \$10 on ads only? Nice lie too. Just trying to advertise your shitty Shopify store service I presume.

I am confused about that as well. The screenshot shows earnings for a single day while he says 16k in a month. So he only makes 16k in a single day once a month? Doesn't make sense.

Smoky - December 15, 2020, 8:58 am

Congratulations on your success !!

I am doing mine right now and I hope to be as successful as you!

Keep it up !!

With only \$10 in ads. That's 160,000% ROI! ?

The screenshots are showing a very outdated version of Shopify's UI. Won't be surprised if OP opened a "mentorship" thread the next day.

ost11850 - December 21, 2020, 11:23 pm

wait what is that a mistake or did u just fooled lots of people into thinking u got you'r self a great roi

....shopify has no free plan there's a free trial which keeps you'r store locked from being viewed by the public

also yeah that sounds insane that's basically not paying for advrtizing.... unrealistic
propably just a troll looking to waste people's time with crap advice or something like that idk....

Vossen - December 23, 2020, 7:03 am

\$10 a week in ads. Wow.

Even if the screenshot didn't show earnings for a single day only, whereas your thread says a full month, and the diagram actually matched up with the number, these threads get even stupider every time.
