Thread: [\[H\] \\$300 Dollar Shave Club e-Gift card \[W\] \\$250 BTC or ETH](#)

I have a spare \$300 DSC e-gift card which is useless to me since I don't live in the US, Canada, UK, or Australia. I accept BTC and ETH.

Only dealing with trustable people with a good profile and background.

You can use a middle-man if you pay the fees and he's also a good member of HF.
The gift card doesn't expire.

Hey man, these kind of gift cards tend to go much cheaper.

Just my 2 cents

Do you know any site like paxful.com where I could sell it?

No, as I've never heard of the dollar shave club gitcard. A lot of people card giftcards these days so the competition may be rough, wherever you try to sell.
