Hey guys. I've taken my yearly sanity / straight check break from ewhoring and it's time to get back into the game!

If anyone would be so kind as to letting me now what works / doesn't work anymore I'd be entirely grateful.

I don't have packs atm and last time I ewhore'd kik was still very popular.. is that done?

Anywho, look forward to chatting with you all again.

[BRAND NAME REMOVED] traffic and your chilling money wise

It's still possible to earn on Kik, although Snapchat is basically the norm now because of efficiency. Many people know that you can fake lives on kik, but rarely who knows you can fake live pictures/videos on Snap which makes it even better sales-wise.
