Thread: [COD MOBILE - HACKS?](#)

**gaspforair** - December 14, 2020, 11:15 pm

Anyone have any experience with COD Mobile and making it glitch on the other team/ see through walls etc etc?

Seen a few people do this to our team and we'd like to target them back their way. Let me know if you got something!

thanks in advance!

I'm pretty sure noone is going to respond. I don't know why though. Maybe nobody has the skill to hack the "anticheat" maybe..

Yes reverse psychology. Why don't you obtain the skills to do it then?

Did I offended you, I really have some other things to do. That is the reason I am looking for someone who got the skills and talent to do this and I am ready to pay for his work. I didn't mean nobody's got the talent, maybe skilled people are not focusing on this game as it is for mobile.

I was really not expecting any responses from any one in this community as I know as only "certain" people will fall for cheap tricks like those.

Also, this is not the first community I queried for the hack.

It's possible on Jailbroken phones. Check iOSGods?
