QUICK DISCLAIMER: I'M NOT GOING TO ASK YOU FOR ANY MONEY DURING ANY STEP OF THIS SERVICE. THIS IS TOTALLY FREE.

Hey, so I'm today I decided that I'll offer something quite unique actually haha. I'm offering to create your Shopify store for FREE. Yes, you heard that right for free. I've been into many in-depth courses about dropshipping and how to make a store look pretty nice, so I decided to build up my experience a little more. I will be building stores for free. There are no strings attached to this and I will never ask you for any money during any part of this process. How this will go is that you I will create your store in developer mode then I will transfer the ownership to you.

Requirements:Proof that you have enough funds to advertise for your store or proof that you ran any successful stores before (so I can make sure that I would not be wasting my time haha)

The niche/product that you want your store based on

The color scheme you want your store to be

That's everything. Just drop me a message with all the requirements and I'll get back to you.
