I'm not specific because you can technically crack any site.

If you have the config yes. I don't teach how to make them my guide just comes with most configs like a few different vpns; [censored], expressvpn, and accounts like hulu, netflix, pornhub, origin, steam, fortnite.

**Mcole** - December 28, 2020, 5:38 am

How do. We make the config . Like I am interested in cracking some and want to learn better

Yes you're supposed to use a rdp/vps however it's fine if you don't, no requirements and unlimited crack attempts yes

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,  
Stanley
