Thread: [PRE-BUILT SHOPIFY STORE - OWN YOUR OWN BUSINESS & START SELLING NOW](#)

Real Estate - December 18, 2020, 6:34 pm

BUILT THIS BUSINESS FOR WEEKS AND PERFECTED THE STORE POTENTIAL TO MAKE 50%+ ON PRODUCTS

The site is already designed and ready to go.

Products are easily imported into your store through an easy-to-navigate dashboard. You search for an item you want to sell on your store, and a bunch of products are populated from Alibaba, Aliexpress, and other online stores.

Once you pick your products, you can simply import them into your store and set the price and forget about it OR you can change your product description pages, images, and more.

Everything is pretty much automated, all you need to do is set the price for your product...

So let's say that you find an iPhone case for \$2, you can set the price to be displayed on your store for \$25, and when someone purchase from your store, the product is automatically purchased for \$2 and shipped to the customer and you keep the profit in between... which would be \$23. With virtually 0 work.

So pretty much all you need to do is run advertisements to your site either with a stat account or through other methods, and you can make a killing off sales... literally no setup required.*

So, what are you offering?:

Pre-built Shopify Store... Ready to go.

Free Domain !

Store has endless products to choose to list on your site

100% DROP SHIP

Custom Theme

Suppliers' Contacts

Tips for Growing Social Media Presence

Pre-made promotions

Email Newsletter

Popup Notifications for Conversions

Popup for exit with coupons

Ability to Run Product Promotions on Social Media*

Analytics Dashboards

I believe anyone with motivation and resilience can make money from Shopify Dropshipping. For \$49.99, the cost of a meal in Bay Area can generate income for months. Invest in projects that return your investment within a few products sold.

haha okay clearly you don't know what you're talking about.

Actually, i created a bunch of stores prior to shopify changing over their terms and services around July or August 2020. So i have unlimited free store plans! :)

Everyone on this site is just a sales thrasher now. GG.

ok i feel like this should be reported for spam and laying basically

i've been using shopify for years... and magento later on btw...

nothing has changed

u can go on the website right now and look where it says free trial for 2 weeks (there are promos for longer onces and.... free month once i rmeemebr but never checked them...)

and u can go to internet archive and look at any other date and time and see that shopify was never free and allways had a trial where it siad "that if you'r comftarble with launching you'r store AFTER the free trial then u can pay..."

only then... the free trial is for you to build up you're store selling is and never has been free

so stfu and gtfo of this forum

stop spamming and talking buuuuuulshit and waste people's time on things u don't understand
