Thread: [Looking for experienced web dev for various projects](#)

Karantina - December 19, 2020, 1:21 pm

Looking for a long term dedicated full stack developers.

A fully working customized ecommerce website that looks clean and professional.

- 1) Clean design website
- 2) Various payment processing
- 3) Admin menu
- 4) Order menu
- 5) Adding, removing products option

Only add me if you are professional and dedicated developer that follows deadlines and has a portfolio of websites made to prove it. Do not bother otherwise.

Hey, depending on how much you are offering I might be interested in that.

I have created a Licensing System, Av Scanner and Password Recovery website, you can check it out here: <https://aegistools.tk>

Israinsolutions - December 19, 2020, 11:23 pm

Interested, sent you PM with samples portfolio!

LeetHost - December 22, 2020, 10:38 pm

We've done many customized platforms, including ecommerce websites. I've sent you PM with portfolio, please have a look.
